EXPERIENCE

The Cause, London – *Lighting Technician*

1st Sept- PRESENT

- Working on rigging lights for events learnt how to effectively and quickly move trusses and scissor lifts.
- Programming lights on Avolite software also working with smoke machines.
- Using beam lights and I am currently exploring that software.

Contact details are available.

Truck Festival, Oxfordshire– *Work experience*

17th-25th July 2023

- Worked as a labourer and also assisted the lighting technicians with rigging the tents.
- Worked front of house of the Main stage on the lighting desk for Mr Motivator.

Contact details are available.

Rich Mix, London – *Technical Assistant*

30th-4th July 2018

- Worked as a technical assistant in sound and lighting on live events.
- Set up the Back line as well as the PA.
- Conversated with artists, and referenced tech specs, to create the best set up on the desk for both lighting and audio.

Contact details are available.

PRG, Birmingham Depot. – *Electrical Lighting Technician (1wk)*

5th-10th July 2018

- I Learned how to fix follow spots, lanterns and gobos also working inside large power and data distribution systems.
- Worked on PAT testing equipment.
- Learned on the job how to identify issues and remedy them as quickly as possible for deadlines.

Contact details are available.

There are gaps in the timelines of me working in the industry, as I have dedicated a lot of my time working as a 1-2-1 Special Educational Needs assistant within mainstream schools primarily with children who have ADHD and Autism. Also worked as a barista running the cafe both independently and with colleagues, I spent some time working within the catering industry specifically for a shipping brokers.

EDUCATION

BIMM (British and Irish Modern Music Institute) , London – Degree
Current.

In my final year studying Music and Sound Production, currently on modules such as Immersive Audio, also Festival Management where I had the opportunity to work at Truck Festival and assisted with lighting tents.

City and Islington Sixth Form College, Angel, London – A levels

I studied Music, Music Technology and Fine Art. Had technician roles within theatre productions where I was required to patch rigging, both for lighting and sound. My free time was spent learning from the on site technicians where I was taught to solder and rewire lights and cables.

St Marylebone girls school, Marylebone London– 8 GCSEs

A choral scholar who actively participated in the technical production of large scale, full orchestral, performances within historic buildings located near the school. Studied music and art within my GCSE's.

AWARDS

The Rectors prize- St Marylebone.

Special Interests

Creatively upcycling fabric to make my own clothes.

Crafting in various artforms.

Playing a range of instruments i.e cajon.
