123A Ladywell Road, London SE137JA

Profile

As a highly skilled engineer, I have substantial experience in sound systems, acoustics, electronics, IoT systems, and programming languages. My expertise started in Sound Engineering and then expanded towards Electronics Engineering following a desire to understand the technology in depth. As a detail-oriented and analytical problem solver, I can diagnose and troubleshoot issues in various systems to ensure that projects are completed and excelling in performance. I have professional experience mainly comprised in the production of live theatre and music shows. These range from technical manager to sound engineer and lighting operator. All the work carried out over the years has given me the drive to enhance my skills and expand my knowledge of related technologies. Always looking to provide a good work environment that strengthens efficiency and quality.

Education

BSc Sound Engineering,
University of West London

PgDip Advanced Electronic and Electrical Engineering,
Queen Mary University of London

Dante Certification Level 3,
Audinate

Skills
