Personal statement

As a highly motivated individual with a passion for lighting, I am confident that I possess the necessary skills and enthusiasm to thrive in a multitude of roles on set.

Since deciding to complete my electrical qualifications, I have been trying to find a creative outlet to utilise my skills. The ability to manipulate light to create mood and atmosphere fulfils this for me. This has led me to pursue a career in lighting, and I am eager to learn more about the technical aspects of field.

Having had experience working in a variety of settings previous to this pursuit, I feel I am very adaptable to the majority of settings. In addition, I am a quick learner, thus confident I can quickly pick up new skills required in the industry.

Electrical Competencies
