ABOUT ME

Highly skilled and motivated AV Technician with experience in live event production, studio setups, and corporate AV solutions. Adept at troubleshooting, sound engineering, and system configuration, with a strong focus on delivering high-quality audiovisual experiences. Excellent problem-solving skills, positive attitude, and strong people skills to ensure seamless operations in fast-paced environments.

Seeking freelance, part-time & full-time AV roles in London.

WORK EXPERIENCE

Technical Operations Manager

2020 - 2023

5Star AVL | Lagos

As the Technical Operations Manager of 5Star AVL; I facilitated the creation of Audio, Video, and Lighting solutions for Churches and Recording Studios, this includes services such as Acoustic Treatment, Soundproofing, Room and Stage Design, Consultation, Procurement, and Installation.

Below are some of my projects, you can also visit my profile page ([Link](#)).

Kashe Music

- Collaborated with a client to transform a spare room into a professional Home Studio space
- Result: Successfully delivered the design, soundproofing, acoustic treatment, lighting, and aesthetic aspects of the project.

RockDove Sound and Multimedia Services

- Transformed a 5m x 5m room into a fully functional Recording Studio
- Delivered a comprehensive solution, including:
 - Appropriate soundproofing and acoustic treatment
 - Design and construction of a drum booth
 - Procurement and installation of professional audio and lighting equipment
- Result: A state-of-the-art studio that exceeded the client's expectations.

Freelance Audio Tech.

2024

Bethel Productions | London

Tems Tour

- **Organized and cataloged audio gear**, ensuring efficient storage and accessibility for the tour.
- **Built and assembled the touring gear rack**, optimizing setup for seamless transport and performance.
- **Set up, patched, and tested audio systems** for rehearsals and live shows, ensuring high-quality sound.
- **Troubleshoot and maintained equipment** during performances, resolving issues for uninterrupted audio production.
