Personal Statement

I have a variety of hobbies that keep me busy, with my favorites being playing bass guitar, singing, and performing in bands. These passions led me to get involved in the music industry and are the reason I now study bass at the university level. One of my career goals is to create my own music festival, and I've started pursuing this by studying event management and running my own gig promotion business, *Lazy Two Steppers*.

Because of these experiences, I thrive in dynamic environments where creativity and organization intersect. Teamwork and communication are the cornerstones of both my personal and professional life, making me a valuable asset to any team.
